

Garden Walk Notes

Walk 7
9/23/06

Hi All-

We observed my fall-blooming aster 'Purple Dome', which is just beginning its bloom, and sedum 'Autumn Joy' in full bloom.

We headed over to Phil's house to see his unbelievably beautiful clematis 'Sweet Autumn' in FULL bloom across the arbor – billions of tiny white blooms. He has potted up a half a dozen seedlings for the taking. They are on the side of his driveway – help yourself (NOTE: these need full sun, and grow prodigiously).

We headed over to Tony and Randy's: the purple observant in bloom, and monk's hood about to bloom.

We discussed the major improvement at the end of Kenyon Street, thanks to Toni's initiative and activism, cheered on by the rest of the block. Both owners of the lots at the beginning of the block have tackled the weeds and trash on their property. Way to go!!

Walk notes are now posted for walks 5 and 6, along with plant materials for mark and Luciano's at 21 Sherman St.
